## Plan Note:

### Plan Note Status: Finalized

Continue same treatment plan. Reviewed and continue with current medication. Medication adherence education was given to the patient. Patient was educated on benefits of low salt, low fat, low cholesterol diet with current medical issues. Patient encouraged continuing weight loss efforts via daily exercise and certain food restrictions. No labs needed at this time. The patient verbalized understanding of the above plan, and was given the office number to call for any questions or concern. Discussed the treatment plan with family and patient. Prognosis is fair. Followup in 4-6 weeks. Referral to gastroenterologist for nausea and vomiting.

1. Continue current plan for hypertension.
2. Continue current plan for diabetes mellitus type 2.
3. Continue current plan for GERD.
4. Continue current plan for overactive bladder.
5. Continue current plan for atrial fibrillation.
6. Continue current plan for hypothyroidism.
7. Continue current plan for degenerative joint disease.

Add Diflucan one tablet for rash under breast and groin. If rash get worse, the patient has been requested to go to dermatologist.
