## Plan Note:

### Plan Note Status:Finalized

Continue same treatment plan his previous. Reviewed and continue same medications. Medication adherence education was given to the patient patient educated on the benefits of low-salt, low-fat, low cholesterol diet with current medical conditions. Patient was instructed to go to ER for symptoms of chest pain, shortness of breath, excessive headache, blurry vision or systolic blood pressure greater than 200. Patient encouraged exercise daily. No labs needed this visit. Patient verbalized understanding of the above plan and was given the office number for any questions or concerns. Prognosis is fair and patient is stable. Reviewed old records of the patient. Follow up appointment in 4-6 weeks.

1. Asthma, continue current plan.
2. Anxiety, continue current plan.
3. Bipolar, continue current plan.
4. Chronic pain syndrome, continue current pain medication.
5. Chronic migraines, continue current plan.
6. Posttraumatic stress disorder, continue current plan.
7. Cholinesterase deficiency, continue current plan.

Medication refills as follows:  
Predisone 20 mg q.d.  
Atrovent INH  
Flovent INH
