Plan Note:

Plan Note Status:Finalized

Continue same treatment plan as previous. Reviewed and continue same medications, no new medications noted this visit. Medication adherence education was given to the patient and the patient educated on the benefits of low-salt, low-fat, low cholesterol diet with current medical condition. Patient was instructed to go to ER for symptoms of chest pain, shortness of breath, excessive headache, blurry vision or systolic blood pressure greater than 200. Patient encouraged to exercise daily. No labs needed this visit. Patient verbalized understanding of the above plan was given the office number for any questions or concerns. Prognosis is fair and patient is stable. Reviewed old records of the patient. Follow up appointment in 4-6 weeks.

1. Anxiety, continue current plan.

2. Bipolar, continue current plan.
3. Depression, continue current plan.
4. Osteoarthritis with chronic pain, continue current plan.
5. Chronic pain syndrome, continue current pain medication.
6. Lumbago with chronic pain syndrome, continue current plan.
7. Erectile dysfunction, continue current plan.
8. Schizophrenia, continue current plan.

Medication refills as follows:

Norco 10/325 mg t.i.d.
 Trazodone 150 mg q.h.s.
 Alprazolam 0.5 mg t.i.d.
