## Plan Note:

### Plan Note Status:Finalized

Continue same treatment plan as previous. Reviewed and continue same medications, no new medications noted this visit. Medication adherence education was given to the patient and the patient educated on the benefits of those sold, the fact I'm a little cholesterol diet with current medical conditions. Patient was instructed to go to ER for symptoms of chest pain, shortness of breath, excessive headache, blurry vision or systolic blood pressure greater than 200. Patient encouraged to exercise daily as tolerated. No labs needed this visit. The patient verbalized understanding of the above plan and was given the office number for any questions or concerns. Prognosis is fair and patient is stable. Reviewed old records of the patient. Follow up appointment in 4-6 weeks.

1. Asthma/chronic obstructive pulmonary disease, continue current plan.
2. Hypertension with vascular complications, continue current plan.
3. Hyperlipidemia, continue current plan.
4. Depression, continue current plan.
5. Anemia, continue current plan.
6. Congestive heart failure with systolic complications, continue current plan.
7. Intellectual disabilities, continue to monitor.
8. Chronic pain syndrome, continue current pain medication.
9. Hyperlipidemia, continue current plan.
10. Rheumatoid arthritis/osteoarthritis with chronic pain, continue current plan.
11. Schizophrenia, continue current plan.
12. Bipolar, continue current plan.
13. Cirrhosis of liver, continue current plan.
14. Gastroesophageal reflux disease, continue current plan.

Medication refills as follows:

Advair 250/50  
TAC 1% Cream.
