## Plan Note:

### Plan Note Status: Finalized

Continue same treatment plan as previous. Reviewed and continue with current medication. Medication adherence education was given to the patient. Patient was educated on benefits of low salt, low fat, low cholesterol diet with current medical issues. Patient was instructed to go to the emergency room for symptoms of chest pain, shortness of breath, headache, blurred vision or systolic blood pressure over 200. Patient encouraged continuing weight loss efforts via daily exercise and certain food restrictions. No labs needed this visit. The patient verbalized understanding of the above plan, and was given the office number to call for any questions or concern. Prognosis is fair and patient is stable.

Epilepsy continue current plan  
HTN w/vascular continue current plan  
CAD continue current plan  
GERD continue current plan  
Neuropathy continue current plan  
Muscle Spasms continue current plan  
OA w/chronic pain continue current plan  
HLD continue current plan  
Abnormal Gait continue to monitor  
Visual Impairment continue to monitor

### Medication refills as follows:

Levetiracetam 500 mg b.i.d.  
Triamterene/HCTZ 37.5/12.5 mg q.d.  
Pravastatin 20 mg q.h.s.
