## Plan Note:

### Plan Note Status:Finalized

Continue same treatment plan as previous. Reviewed and continue with current medication. Medication adherence education was given to the patient. Patient was educated on benefits of low salt, low fat, low cholesterol diet with current medical issues. Patient was instructed to go to the emergency room for symptoms of chest pain, shortness of breath, headache, blurred vision or systolic blood pressure over 200. Patient encouraged continuing weight loss efforts via daily exercise and certain food restrictions. The patient verbalized understanding of the above plan, and was given the office number to call for any questions or concern. Discussed the treatment plan with the patient and family. Prognosis is fair and patient is stable. Patient was given card with number to the office for any questions or concerns. Patient was instructed to go to emergency room for any life threatening emergency. Patient verbalized understanding of the above plan. Reviewed old records of the patient. Follow up appointment in 4-6 weeks.

1. Parkinson's disease, continue current plan.
2. Dementia, continue to monitor.
3. Neuropathy, continue current plan.
4. Gastroesophageal reflux disease, continue current plan.
5. Hypertension, continue current plan.
6. Congestive heart failure, continue current plan.
7. Cerebrovascular effects, continue to monitor.
8. Prostate cancer, continue current plan.
9. Constipation, continue to monitor.

No medication refills needed this visit.
