Patient Appears To Be In Good Mood-Within Normal Limits .
Able To Answer Questions Qppropriately-Within Normal Limits .

SKIN:

Clean & Intact with Good Skin Turgor-Within Normal Limits .

Assessment:

Educated the patient on the importance of low-fat, low-salt, low-cholesterol diet and exercise. Medical complexity and risk of complications medium. No CP, HA, or N/V. No hypoglycemia and foot check revealed no issues. Patient was advised on fall precautions. Patient need light weight wheelchair for transportation. Has rash between buttocks. Continue using cream. Education material was given to the patient. Reviewed labs.

Patient diagnoses are,

1. Kyphosis, stable.
2. Insomnia, stable.

3. Alzheimer disease, stable.
4. Allergic rhinitis, continue with Zyrtec.

Plan:

Continue same treatment plan. Reviewed and continue with current medication. Medication adherence education was given to the patient. Patient was educated on benefits of low salt, low fat, low cholesterol diet with current medical issues. Patient encouraged continuing weight loss efforts via daily exercise and certain food restrictions. No labs needed at this time. The patient verbalized understanding of the above plan, and was given the office number to call for any questions or concern. Discussed the treatment plan with the patient and family. Prognosis is fair and stable. Reviewed old records of the patient. Followup in 4-6 weeks.

1. Continue current plan for kyphosis.
2. Continue current plan for insomnia.
3. Continue current plan for Alzheimer disease.
4. Continue current plan for allergic rhinitis.

Refilled Nystatin cream for rash.

Quality Of Care

1. Provided Education Resource(s).
2. Medication Reconciliation.
3. Documentation of current medications.
4. Patient Decision Aids / Education Materials Given.

Home Health Plan:

Patient Home Bound or Can't Drive: YES

Is Home Health Care Needed: YES

Does Patient have reliable other Primary Care Physician: YES

Is House Visit Needed: YES

Next Visit Duration (in days): 31

Nursing Required: YES

Physical Therapy: NO

Occupational Therapy Required: NO

Speech-language Pathology Required: NO

Clinical Findings To Justify Home Health: Skilled nursing needed due to multiple complex conditions and patient lack of knowledge on how to manage the disease process and medications. Skilled nursing needed to assess and observe patient's condition and medication administration.
