Plan Note:

Plan Note Status:Finalized

Continue same treatment plan as previous. Reviewed and continue same medications, no new medications noted this visit. Medication adherence education was given to patient and patient was educated on the benefits of low salt, low-fat, low cholesterol diet with current medical conditions. Patient was instructed to go to ER for symptoms of chest pain, shortness of breath, excessive headache, blurry vision or systolic blood pressure greater than 200. Patient encouraged to exercise daily. No labs needed this visit. Patient verbalized understanding of the above plan and was given the office number for any questions or concerns. Prognosis is fair and patient is stable. Reviewed old records of the patient. Follow up appointment in 4-6 weeks.

1. Anxiety, continue current plan.
2. Hypertension with vascular complications, continue current plan.
3. Neuropathy, continue current plan.
4. Hyperlipidemia, continue current plan.
5. Diabetes mellitus 2 with neuropathy, continue current plan.
6. Epilepsy, continue current plan.
7. Chronic pain syndrome, continue current pain medication.
8. Major depression, follow up with psychiatric.

No medication refills needed this visit.
