## Plan Note:

### Plan Note Status:Finalized

Continue same treatment plan as previous. Reviewed and continue with current medication. Medication adherence education was given to the patient. Patient was educated on benefits of low salt, low fat, low cholesterol diet with current medical issues. Patient was instructed to go to the emergency room for symptoms of chest pain, shortness of breath, headache, blurred vision or systolic blood pressure over 200. Patient encouraged continuing weight loss efforts via daily exercise and certain food restrictions. No labs needed this visit. The patient verbalized understanding of the above plan, and was given the office number to call for any questions or concern. Prognosis is fair and patient is stable.

1. Coronary artery disease, continue current plan.
2. Neuropathy, continue current plan.
3. Gastroesophageal reflux disease, continue current plan.
4. Hypertension with vascular complications, continue current plan.
5. Muscle spasms/weakness, continue to monitor.
6. Epilepsy, continue current plan.
7. Hyperlipidemia, continue current plan.
8. Osteoarthritis with chronic pain, continue current plan.
9. Abnormal gait, continue to monitor.
10. Visual impairment, continue to monitor.
