Plan Note:

Plan Note Status:Finalized

Continue same treatment plan. Reviewed and continue with current medication. Medication adherence education was given to the patient. Patient was educated on benefits of low salt, low fat, low cholesterol diet with current medical issues. Patient encouraged continuing weight loss efforts via daily exercise and certain food restrictions. No labs needed at this time. The patient verbalized understanding of the above plan, and was given the office number to call for any questions or concern. Discussed the treatment plan with the patient. Prognosis is fair and patient is stable. HHC nurse to come three times a week due to patient having both feet broken and poor balance. Patient lives alone now and needs supervision. Reviewed old records of the patient. Follow up appointment in 4-6 weeks.

1. Anxiety, continue current plan.
2. Epilepsy unstable, continue current plan.
3. Chronic pain, continue on pain medications.
4. Osteoarthritis, continue PT/OT.
5. Neuropathy, continue current plan.

Started on vitamin D.

Refill: Order nutritional supplement due to not eating. Also weekly weights. Order adult pull ups for incontinence. Large size
