## Plan Note:

### Plan Note Status:Finalized

Continue same treatment plan as previous. Reviewed and continue same medications, no new medications noted this visit. Medication adherence education was given to the patient. Patient was educated on benefits of low salt, low fat, low cholesterol diet with current medical issues. Patient was instructed to go to the emergency room for symptoms of chest pain, shortness of breath, headache, blurred vision or systolic blood pressure over 200. Patient encouraged continuing weight loss efforts via daily exercise and certain food restrictions. No labs needed this visit. The patient verbalized understanding of the above plan, and was given the office number to call for any questions or concern. Discussed the treatment plan with the patient. Prognosis is fair and patient is stable. Reviewed old records of the patient. Follow up appointment in 4-6 weeks.

1. Hypertension with vascular, continue current plan.
2. Hypothyroidism, continue current plan.
3. Epilepsy, continue current plan.
4. Coronary artery disease, continue current plan.
5. Schizophrenia, continue current plan.
6. Insomnia, continue current plan.

Medication refills as follows:

Amlodipine 10 mg q.d.
