Plan Note:

Plan Note Status:Finalized

Continue same treatment plan as previous. Reviewed and continue with current medication. Medication adherence education was given to the patient. Patient was educated on benefits of low salt, low fat, low cholesterol diet with current medical issues. Patient was instructed to go to the emergency room for symptoms of chest pain, shortness of breath, headache, blurred vision or systolic blood pressure over 200. Patient encouraged to exercise daily. No labs needed this visit. The patient verbalized understanding of the above plan, and was given the office number to call for any questions or concern. Prognosis is fair and patient is stable. Reviewed old records of the patient. Follow up appointment in 4-6 weeks.

CAD continue current plan
Constipation continue current plan
HTN w/vascular continue current plan
Urinary Incontinence continue current plan
Insomnia continue current plan
Cerebral Palsy continue to monitor

Medication refills as follows:
Atenolol 25 mg q.d.
