Plan Note:

Plan Note Status:Finalized

Patient to have oral surgery next week at Parkland. Continue same treatment plan as previous. Reviewed and continue same medications, no new medications noted this visit. Medication adherence education was given to the patient and the patient educated on the benefits of low salt, low-fat, low cholesterol diet with current medical conditions. Patient was instructed to go to ER for symptoms of chest pain, shortness of breath, excessive headache, blurry vision or systolic blood pressure greater than 200. Patient encouraged to exercise daily as tolerated. No labs needed this visit. The patient verbalize understanding of the above plan and was given an office number for any questions or concerns. Prognosis is fair and patient is stable.

1. Odontogenic infection, continue current plan, oral surgery scheduled.
2. Hypertension with vascular complications, continue current plan.
3. Hypothyroidism, continue current plan.
4. Neuropathy, continue current plan.
5. Visual impairment, continue current plan.
6. Depression, continue current plan.
7. Hyperlipidemia, continue current plan.
8. Chronic pain syndrome, continue current plan.

No medications needed this visit.
