Plan Note:

Plan Note Status:Finalized

Continue same treatment plan as previous. Reviewed and continue same medications, no new medications noted this visit. Medication adherence education was given to the patient and the patient educated on the benefits of low salt, low-fat, low cholesterol diet with current medical conditions. Patient was distracted to go to emergency room for symptoms of chest pain, shortness of breath, excessive headache, blurry vision or systolic blood pressure greater than 200. Patient encouraged to exercise daily. No labs needed this visit. The patient verbalized understanding of the above plan and was given the office number for any questions or concerns. Prognosis is fair and patient is stable. Reviewed old records of the patient. Follow up appointment in 4-6 weeks.

1. Chronic kidney disease stage-3, continue current plan.

2. Hypertension, continue current plan.
3. Diabetes mellitus type 2, continue b.i.d. insulin administration by skilled nurse until the care is available to admin her insulin.
4. Epilepsy, continue current plan.
5. Insomnia, continue current plan.
6. Hyperlipidemia, continue current plan.
7. Dementia, continue current plan.
8. Depression, continue current plan.

Medication refills are lisinopril 10 mg daily, and levemir insulin.
