

## 60 Day Progress/Summary Note/Team Conference

EMRICK SERVICES INC

Patient: Woodard Garland		Current Cert Period: 03/16/2016-05/14/2016 Conf. Date: 05/11/2016		
Physician: Amusan Adeola , MD		Recert: <input checked="" type="radio"/> Yes <input type="radio"/> No		
Patient Condition: <input type="radio"/> Declined <input checked="" type="radio"/> Unstable <input type="radio"/> Unchanged <input type="radio"/> Improved <input type="radio"/> Stable				
Unusual Home/Social Environment: None				
<b>Homebound Status:</b>				
Criteria One: A. Requires the assistance of supportive device, use of special transportation, or the assistance of another person to leave home (describe/explain): Patient has Arthropathy with Lumbago and an unsteady gait, ambulates with the assistance of his wife or cane sometimes.				
Or B. Leaving the home is medically contraindicated (describe/explain):				
AND Criteria Two: A. There exists a normal inability to leave home (describe/explain): Patient has muscle weakness and pain in multiple joints and is at risk for falls.				
AND B. Leaving home requires a considerable taxing effort (describe/explain): Patient has Lumbago which makes it difficult for him to walk especially in the mornings or after sitting for a long time.				
AND Absences from the home are infrequent, or relatively short duration, or to receive medical care (describe): Patient's doctor visits patient at home.				
PT/INR obtained from N/A finger using aseptic technique		Results:		
<b>Summary/Progress Toward Goals/Continued:</b> Patient received weekly skilled nursing services during this episode. SN performed comprehensive physical assessments of all body systems and monitored vital signs. SN reviewed medications and their effectiveness, assessed pain levels, evaluated home for safety in order to ensure a therapeutic environment and monitored blood sugar. SN instructed patient on Arthropathy signs and symptoms, as well as risk factors, pharmacological and non-pharmacological measures to manage pain, DM management, signs and symptoms of hyperglycemia, and the prevention of stroke. Patient continues to require skilled nursing services, because patient and caregiver have knowledge deficit regarding Arthropathy, DM, Lumbago, HTN, pain and meds management, in order to prevent disease exacerbations and hospitalizations. SN to continue to teach/instruct patient/cg in all areas of knowledge deficit.				
Vital sign ranges for episode:	BP:	to:	Lying:	to:
	Sitting: 116/67	to: 152/84	Standing:	to:
	Weight: 219 lbs	to: 215 lbs	Pulse: 71	to: 89
	Resp: 18	to: 20	Temp: 98.0	to: 98.7
	Blood Sugar: 124 mg/dl	to: 304 mg/dl	O2Sat: 95%	to: 96%
	Pain: 4/10	to: 5/10		
Facility:	NA	<b>Nutritional Needs:</b> Heart healthy, diabetic diet.		
Hospitalization during this episode: <input type="radio"/> Yes <input checked="" type="radio"/> No		Advance Directives/DNR's: <input type="radio"/> Yes <input type="radio"/> No <input checked="" type="radio"/> Not Interested		
OTHER SERVICE PROVIDERS	HAS	NOTIFIED OF RECERT	COMMENTS	
Dialysis	<input type="radio"/> N/A		Dialysis Days:	
Wound Care Center	<input type="radio"/> N/A			
Cancer Center	<input type="radio"/> N/A		<input type="radio"/> Chemotherapy <input type="radio"/> Radiation
