Plan Note:

Plan Note Status:Finalized

Continue same treatment plan as previous provider. Reviewed and continue same medications, no new medications noted this visit. Medication adherence education was given to the patient and the patient educated on the benefits of low salt, low-fat, low cholesterol diet with current medical conditions. Patient was instructed to go to ER for symptoms of chest pain, shortness of breath, excessive headache, blurry vision or systolic blood pressure greater than 200. Patient encouraged to exercise daily as tolerated. No labs needed this visit. The patient verbalized understanding of the above plan and was given the office number for any questions or concerns. Prognosis is fair and patient is stable.

- 1. Osteoarthritis with chronic pain, continue current plan.
- 2. Coronary artery disease, continue current plan.
- 3. Insomnia, continue current plan.
- 4. Chronic pain syndrome, continue current plan.
- 5. Gastroesophageal reflux disease, continue current plan.
- 6. Hypertension with vascular complications, continue current plan.
- 7. Schizophrenia, continue current plan.

Medication refills as follows,
Pantoprazole 40 mg q.d.
